

Prevent tomato melatonin virus **预防西红柿褪绿病毒**

Time: autumn 2019

Place: Yuanmou, Yunnan province, China

时间：2019年秋

地点：中国云南元某

Mr Li Zhongyuan have 1 hectare tomato field, and he plants tomato for many years, there are more serious tomato melatonin virus for every year, and there are no good solutions.

李忠元先生有15亩的西红柿，已经种植多年，每年都会爆发西红柿褪绿病毒，但是一直没有好办法。

During the experiment 2019, the result was so good that the tomato melatonin virus disease was reduced by more than 90%. This made Mr. Li very happy and expressed great expectations for next year.

2019年秋试用了VIRBUSTER之后，病毒病比往年减少了90%以上，这使得李先生非常高兴，并对明年的种植充满了信心。
